

EVENING EDITION

East Oregonian

DAILY EVENING EDITION
WEATHER FORECAST.
Tonight and Saturday rain, warmer tonight. High southerly winds.

PENDLETON, OREGON, FRIDAY, DECEMBER 9, 1904.

NO. 5226.

10,000 IS HOLLY TRASH

Story Explains Acceptance of the Securities.

OF FLIM-FLAM FROM START TO FINISH.

Mrs. Chadwick May Be Released, and She Is Closely Questioned of Her Present Condition. She Appeared in Court Yesterday and Her Attorney Abandoned Her Case. She Was Secured and She Returned to the Tomb.

Dec. 9.—The Chadwick case opened this afternoon at the trial of the securities. Their value, \$10,000,000, their actual value, one cent.

Dec. 9.—The Chadwick case opened this afternoon at the trial of the securities. Their value, \$10,000,000, their actual value, one cent.

pent and Powers were closeted till noon with Mrs. Chadwick in the counsel room of the Tombs. Before the interview Carpenter intimated that if the woman insisted on going back to Cleveland the attorneys would abandon the case. He further intimated that if she remained the question as to her sanity would be gone into. It is learned that Mrs. Chadwick is most anxious to return to Cleveland.

Mrs. Chadwick Undecided.
New York, Dec. 9.—At 3 this afternoon Emil Hoover reported to the United States marshal that his mother had not decided whether to make the trip to Cleveland or not, and wanted to consult further with her attorneys. Her request for another hour in which to deliberate was granted.

Will Stay in New York.
New York, Dec. 9.—At 4 this afternoon Mrs. Chadwick notified Marshal Henkel she had decided not to waive examination. She reached the decision to remain chiefly through the advice of her counsel.

No Bondsman Found.
Up to 4 o'clock no bondsman had been secured and it is likely Mr. Chadwick will spend a second night in the Tombs.

TRIAL IN PROGRESS.
Much of the testimony is a repetition of preceding trial.

New York, Dec. 9.—Hearing of the testimony in the Patterson trial began at noon. Miss Patterson sat beside her father and listened intently to the testimony, much of which is a repetition of that adduced at the first trial. The young woman wore a black dress, while a black veil concealed her features from the spectators. But few curiosity seekers are in court.

Puter Gives Bonds.
Portland, Dec. 9.—S. A. D. Puter, the convicted land thief, has succeeded in giving additional bonds for \$4000 and is at liberty. Mrs. Watson has not yet succeeded in giving her additional bonds.

WILL ADJOURN DECEMBER 21

PENSION BILLS TURNED OVER TILL DECEMBER 12.

More testimony reported in impeachment case against Federal Judge Swaine, of Florida, and case will be heard December 13.—The policy this year will be to curtail public building appropriations about two-thirds.

Washington, Dec. 9.—The house passed the current resolution providing for adjournment December 21 to January 4.

Hepburn's motion to strike out the appropriation for the civil service from the legislative, executive and judicial appropriation bill was defeated. Pensions went over until Monday.

More Testimony Reported.
Washington, Dec. 9.—The house committee on judiciary today decided to report additional testimony in the case of Judge Swaine of the northern district of Florida, which strengthens the demand for impeachment proceedings. The impeachment resolutions are the special order for the house December 13.

Curial on Public Buildings.
Washington, D. C., Dec. 9.—The house committee on public buildings today decided to report at this session an omnibus public building bill that shall be moderate in amount, probably one-third of the previous bill, which called for \$19,000,000.

COST OF GOVERNMENT.
Claimed That New York City is the Most Expensive.

New York, Dec. 9.—New York under a Tammany Hall mayor has the most expensive city government on record. According to Mayor McClellan's first budget, it will cost New York city \$110,500,000 to conduct its municipal affairs in 1905.

There are in the neighborhood of 4,000,000 inhabitants in New York city at this moment, allowing liberally for the gain which has been made since the census of 1900, which gave the city a population of 3,427,000. No other people in the world pay anything like this sum, per capita, for the expenses of their government.

Business Houses Destroyed.
St. Joseph, Mich., Dec. 9.—A storm today destroyed several business houses. The loss is estimated at \$200,000.

The only known fatality that has occurred at the disturbances at the Ziegler coal mines in Illinois, is the killing of a company mule by United States regulars.

GETTING BACK TO A NORMAL BASIS

Prices on Wall Street Fluctuate Violently at the Opening of the Market.

AFTERWARD SETTLE TO LEGITIMATE BUSINESS.

Opened a Few Points Lower Than Last Night's Close, But Rallied Smartly as the Bear Movement Came Exhausted — Amalgamated, Lawson's Target, Fell at First, But Recuperated Immediately and Rose to a Strong Figure, Where It Remained—Better Feeling Prevails, and It Is Believed the Panic Condition Has Passed Away.

New York, Dec. 9.—An exciting opening was the aftermath of the two days' semi-panic, and prices on the Stock Exchange fluctuated violently the first 10 minutes. The prices were from one to two points under last night's close.

The buying from banking and other big interests started at low figures, and prices rallied smartly. Amalgamated opened one and three-quarters off and fell to 62½, after which it rose to 68 at 11 o'clock. There is a better feeling on board this morning, and it is believed the panic conditions have passed. Lawson is silent this morning.

NO CHAINS FOR BAD BOYS.
Jacob Rills Institutes Reforms in Seattle School Discipline.

Seattle, Dec. 9.—As the result of an investigation of Major Newell's school on Mercer Island by Mayor Hallinger and several members of the school board, accompanied by Jacob Rills, the well known slum worker and lecturer of New York, the superintendent of the school is requested to dispense with the use of chains in dealing with the tough boys under his charge.

The party visited the school yesterday and are well satisfied with conditions as they found them, except the custom of shackling boys who are considered to be unruly. A new building is expected to be built on the island in the near future and the necessity of using chains to confine boys will then be entirely done away with.

NEW POWER PLANT.
Clarkston-Lewiston Will Have Electricity.

An idea of the vast extent of the works already planned by E. H. Libby and his associates for construction work by the Lewiston-Clarkston Co. in the near future is evidenced by the fact that negotiations are now on foot for upwards of 40,000 barrels of Portland cement to be used in the dams, water conduits, buildings and other works of the company. This amount of cement means 400 carloads of 100 barrels to a car. It means about 200 ordinary steamboat loads. It means 16,000,000 pounds or 8000 tons of this commodity alone.

Another evidence of the extent of the work is the amount of copper wire which these gentlemen have been buying. The shipments thus far amount to four carloads and another carload has just been ordered, amounting to between 300 and 400 miles in length.

The 2000 cedar poles which have been bought by the company in the past three months stretched end to end would reach nearly from Lewiston to Juliaetta.

The big porcelain insulators used on the company's line northward into the Palouse country, were 5000 in number and filled three big cars. The contract for the iron pins supporting the insulators was awarded to the Lewiston Foundry & Machine Co. and amounted to \$7000.

The 4000 yellow fir cross arms made by the Valley Lumber & Manufacturing Co., with the sawing, boring, planing, chamfering and painting cost on the ground, for this Palouse line alone, upwards of \$3000.—Lewiston Tribune.

MUST NOT PASS DARDANELLES

Russia's Black Sea Fleet Is Hung Up Securely So Far as This War Goes.

JAPANESE USE FIRE AT 203 METER HILL BATTLE.

More Definite Accounts Show That the Ruin in Port Arthur Harbor Is Sweeping and Absolute and the City Is Being Consumed by Fire—Japan Will Float Another Loan, But the Government Finds That an Increase of Taxes Is Unpopular With the People—Long List of Killed and Wounded Japanese Officers at Port Arthur.

Manchester, England, Dec. 9.—The Dispatch learns that the sultan has assured Great Britain that Turkey will adhere to the treaty of Paris and prevent the passage of the Dardanelles by the Black Sea fleet.

Honors for Generals.
St. Petersburg, Dec. 9.—The czar has conferred on General Biderling, commanding the 17th army corps, and General Sakharoff, chief of staff, under Kuropatkin, golden swords set with brilliants, bearing the inscription, "For valor."

Thirty-six Officers Killed.
Tokio, Dec. 9.—The headquarters staff today published a list of 36 officers killed and 48 wounded. It is presumed the casualties occurred at Port Arthur.

Used Fire at Meter Hill.
Tokio, Dec. 9.—In the attack on 203 Meter Hill the Japanese drenched the timber works with kerosene and started fires which were fanned by a strong gale. The advance was slow, as the Japanese were obliged to make roads with bags of earth, and finally took the hill by a sudden night attack.

Ruin in the Harbor.
London, Dec. 9.—Baron Hayashi has received the following report of fighting at Port Arthur:

"Thursday evening the Russian cruiser Pallada, after taking fire, keeled to port with stern down. Eleven shots told on the gunboat Giliak, and the cruiser Buian took fire at 11:30 and is still ablaze at 4 in the afternoon. The Russian transport Amur was hit in the stern 14 times and sunk. Many shots greatly damaged other buildings and the arsenals."

Will Float a New Loan.
Tokio, Dec. 9.—Forty leaders and the ministers discussed the war budget today. It is probable a new loan will be floated to meet the deficit. The proposed increase in taxes is not meeting with popular approval.

Port Arthur on Fire.
Rome, Dec. 9.—A dispatch just received from Chefoo states that Togo is bombarding the inner docks of Port Arthur. Dense smoke is ascending from different parts of the fortress, indicating the possibility of a general conflagration.

CORNUCOPIA FORECLOSURE.
Action Brought to Recover Over One Hundred Thousand Dollars.

Baker City, Dec. 9.—One of the largest foreclosure suits being an action based on a mortgage of mining property, ever brought in the Baker county circuit court, was filed yesterday by Teal & Minor and Emmett Callahan, attorneys for Henry H. Rogers, popularly supposed to be one of the Standard Oil magnates, to recover \$95,787.50 and \$5000 attorney's fees.

The complaint makes the Allis-Chalmers Co., George D. Beatty, receiver Cornucopia mines, Pacific States Telegraph & Telephone Co., The Cornucopia Mines of Oregon, Holly, Mason Marks & Co., Basche-Sage Hardware Co., and about 100 others defendants.

It will be remembered that November 22, the personal property of the Cornucopia was sold by Sheriff Brown to Col. W. F. Butcher for \$2500, and that November 25 the real property of the mines was sold by the sheriff to Colonel Butcher for \$28,560. Yesterday the Allis-Chalmers Co. obtained judgment against the property, and it would seem that the mine is somewhat legally complicated.

No action was taken by the court yesterday on the new suit, and no injunction granted, nor was a receiver appointed. The matter will probably come up today, and it is understood that Colonel Butcher, who is trustee for a majority of the defendants in this case, will take the necessary steps to protect their interests.

WILL DEBATE TRUST QUESTION.

An Inter-State Affair at Moscow, Idaho.

Moscow, Idaho, Dec. 9.—The annual debate here this evening between the University of Idaho and the Washington Agricultural college is attracting much attention. The fact that each of the institutions has a victory to its credit, leaving the present contest in the nature of a "rubber," has given added interest to the event.

The question chosen for debate is: "Resolved, That laws should be passed compelling the management of any business undertaking that secures control of an industry to sell its product at reasonable prices and without discrimination." Idaho has the affirmative and Washington the negative side of the question.

CANADA WILL EXHIBIT.
Our Neighbor Reconsiders and Decides to Erect Pavilion at the Lewis and Clark Exposition.

Portland, Dec. 9.—The Dominion of Canada will be represented at the Lewis and Clark fair by an exhibit characteristic of her resources, and will build a fine pavilion in which to house the exhibit. Canada at first declined to take part in the exposition, but has reconsidered the matter and will have a most creditable display.

It is believed that the exhibit will be made up for the most part of features tending to show the opportunities for settlement of the vast homestead lands of Canada, and that plans will be made by the commonwealth to head a good part of the expected immigration in her direction.

Old Man Electrocut.
Columbus, O., Dec. 9.—William Nichols, 68 years old, convicted of the murder of Alfred Minard, a Civil war veteran, at Kenton in 1903, was electrocuted at midnight.

Curzon Arrives in India.
Bombay, Dec. 9.—Viceroy Curzon arrived today from England and many native rulers have travelled to Bombay to participate in the general welcome to the viceroy.

OFF YEAR IN THE FEED BUSINESS

VOLUME OF TRADE IS CONSIDERABLY LESS.

Dull Season in the Farming Districts Has Greatly Restricted the Demand for Chopped and Ground Feeds and Hays — First-class Alfalfa and Wheat Hay Is Worth \$17.50 Per Ton Baled—Demand Is Less Than Usual in Town.

The dry fall and the dearth of farm work has been strongly reflected in the feed market in this city. The volume of business in the hay and chop market for October, November and December will not be equal to that of last year, owing to the little farm work done and the small demand for team work in the country.

The best alfalfa and wheat, baled, is worth \$17.50 per ton and the demand is very light. Timothy is selling at \$19, and is somewhat more active than either of the other kinds.

Bran is selling at 60 cents per sack or \$17.50 per ton, and shorts at \$19 per ton, and aside from the out-of-town orders little is being done in this line of feed.

While the normal demand for feed has increased greatly in the last year, the dull season in the farming districts has greatly reduced the volume, and this will be counted as one of the "off" years in the feed market in Pendleton.

RIGHT OF WAY SUITS.
Columbia River & Oregon Central Making Progress.

Condon, Dec. 9.—With settlement or dismissal of the right of way suits in the circuit court here, the right of way for the Columbia River & Oregon Central railway from Arlington to Condon has been completed. Two were settled and dismissed. The suit of G. J. E. Barnett will be tried in Sherman county, a change of venue having been granted. Permission was granted the company, however, to run through Barnett's place, damages to be settled later.

The Arlington right of way is still unsettled, but indications are that settlement will soon be made and the road completed without any further obstructions.

MINE ON FIRE.
Finally Quenched With Small Financial Loss and No Loss of Life.

Peoria, Dec. 9.—Shells' mine on the Bartonville insane asylum grounds, are on fire. At the time the fire started 135 men were at work in the mine, and it is feared many lives will be lost.

PORTAGE ROAD IS THREATENED

Deficit Must Be Plagued Tonight or State Fund Will Be Withdrawn.

STATE COMMISSION ISSUES AN ULTIMATUM.

Meeting in Walla Walla This Afternoon to Consider Speedy Action—Walla Walla Citizens May Pledge the Entire Amount, \$33,000, Needed—State Commission Make a Sudden Demand on the Open River Association—State Fund Will Be Withdrawn if Something Is Not Assured at Once—Saturday is the Last Limit.

Walla Walla, Dec. 9.—(Special.)—At a meeting of the executive committee of the Open River association just held at The Dalles, the portage railroad board of the state of Oregon served notice on the Open River association that unless the sum of money agreed to be furnished by the association is in the hands of the bonding company in Portland by tonight, December 9, the money appropriated by the state of Oregon will be withdrawn.

Another requirement is that the bond of the McCabe Construction company, which was to do the work, must be in the hands of the state board at 3 o'clock Saturday afternoon, and that new steel rails and a new engine must be used, instead of the original plan of procuring second-hand equipment.

That speedy action must be taken is very evident and in order that the matter may be settled without delay, Dr. N. G. Blalock, one of the members of the Open River association, has issued a call for a meeting of all those interested in the project for this afternoon.

According to Dr. Blalock, \$27,000 of the \$33,000 that was guaranteed by the Open River association has been pledged and only \$23,000 more is needed to meet the guarantee and provide for the extra expense in securing new equipment.

Dr. Blalock, who has probably taken more interest in the proposition than any other person in Walla Walla, and has devoted much time to it, offers one solution to overcome the difficulty that is now very apparent. His plan is for the people of Walla Walla county to personally guarantee the \$33,000 and make arrangements to have one of the local banks certify that the amount has been guaranteed. He believes that the money can be secured and that the demands of the Oregon commission be met by 3 o'clock Saturday afternoon.

EAGLE VALLEY ROAD.
Will Be Run Into the Cornucopia Mining District.

Baker City, Dec. 9.—W. L. Vinson and associates are pressing the preliminary work for the construction of the railroad from this city to Eagle Valley. A number of eastern capitalists are interested in this road. They are experienced railroad men connected with the New York Central railroad. They have gone over the proposed route and are satisfied that the local traffic which the road will make it a paying investment, not counting the increase in business which will naturally follow by reason of the rapid development of the country with the completion of the road.

One of the most important factors connected with the building of this road will be opening to the world the famous Cornucopia mining district, which has lain dormant for the past 15 years for want of railroad transportation.

The promoters of this new road hope to be able to begin construction work within the next 10 days. A large portion of the grading can be done this winter, as it is through a section of country where cold weather will not be a hindrance to the work.

Senator Fractor has introduced a bill to repeal the anti-canteen law, and legalizing the sale of intoxicants to soldiers at army posts.

Jamaicans for the Isthmus.
Kinston, Jamaica, Dec. 9.—Secretary of War Taft and party who have been at Panama, arrived here this morning. While here they arranged the conditions under which Jamaican labor is to go to the Isthmus.

The party will sail for Panama this evening. Fourteen thousand Jamaican negroes are expected on the Isthmus by April 1, 1905.

Later—All the miners escaped and the fire was subdued with small loss.
